Public life

Hillary Clinton is most famously known as the former First Lady to President [Bill Clinton](#). The two of them would then go on to co-found the [Clinton Foundation](#).

Hillary Clinton's career in politics made her a Senator of New York and later the Secretary of State under President [Barack Obama](#).^[1]

Hillary Clinton went on to become the Democratic Party's candidate for the 2016 Presidential election. She was chosen as a candidate over her party rival, Bernie Sanders, in a campaign led by [John Podesta](#).

Role in #Pizzagate

Hillary Clinton, her husband [Bill Clinton](#) and the [Clinton Foundation](#) are the connecting threads through virtually all of the pages listed on this website. There is significant evidence that Hillary Clinton used her role as Secretary of State in conjunction with the [Clinton Foundation](#) for various purposes including bribery and public corruption, all the way to human trafficking. Their activities have been investigated by several notable figures including the FBI and the possibly murdered [Antonin Scalia](#) and [Monica Petersen](#).

Connection to George Soros

It is reported that [George Soros'](#) organizations have donated at least \$6 million USD to the [Clinton Foundation](#).^[2] He was also known for his contributions to the [Clinton Global Initiative](#).^[3] Soros used this influence to directly affect [Hillary Clinton's](#) policies while Secretary of State ^[4] and is even quoted as saying, "he can always call/meet with [her] on an issue of policy."^[5]

George Soros also channels funds to the Democracy Alliance, which goes through the Amalgamated Bank and into the [Clinton Foundation](#). Some have described this as operation chain as, "Heavy amounts of money laundering, coming from a massive amount of donors." [Confidential]

Kathy Shelton and Hillary's History of Using Illegal Means to Protect Child Rapists

This story was covered in the media by several sources, including Snopes.com who covered the [Kathy Shelton case](#), but Kathy Shelton's own statements were largely ignored in order to protect Hillary from claims of wrongdoing in the case (Writer Kim LaCapria's bio on the website admits she is slanted left). Essentially, the element that is almost always overlooked is that no investigator or police officer would ever corroborate the statements regarding a young Kathy Shelton that Hillary Clinton would make in her sworn affidavit. Those statements about Kathy Shelton, Hillary said, were made to her by those investigators and officers. CNN even attempted to find these investigators and officers Hillary referred to in her sworn affidavit, but never could.^[6] Assuming Hillary lied, that is perjury and obstruction of justice, regardless of the fact that she was the rapist's attorney. ABC Chief Legal Correspondent Dan Abram's website, LawNewz, covered this element of the case in depth: [Link \[Archived Version\]](#)

"owl/minerva rule"

A Jacob Sullivan sends Hillary Clinton an email asking if one of her statements violated the "owl/minerva rule".[\[7\]\(archive.is\)](#)

This reference has remained largely undeciphered, but a document from May 2007 by Yves Tiberghien and Julian Dierkes defined "Minerva's Rule".

Minerva represents a group of like-minded states that support the creation of credible and binding institutions, possibly backed by a limited but creative use of force

In the second, normative mode, Minervian states support multilateralism under the influence of norms and ideas promoted by grassroots actors (such as global civil society), epistemic communities, the staff of international organizations, or norm entrepreneurs. The normative mode is a bottom-up process and it centers on a battle for meanings, identities, and national values.

The third key mode has involved domestic political leadership - i.e. the projection of domestic agendas in Minervian countries onto the global agenda, usually involving multi-level coalitions.

Furthermore, unlike the normative mode, this one is an elite-driven mode, even if it may lead to the creation of an epistemic community or new grassroots coalition along the way

Reference to Moloch, god of child sacrifice

Used State Department email to relay a supporter Lewis Amselem's message on important campaign news and a "chicken to Moloch" sacrifice.[\[8\]](#) Moloch is quite specifically the Canaanite god of child sacrifice.[\[9\]](#)
